

Muna Toktobolotova

Quality Assurance Engineer

New York, NY | munara.qa@gmail.com | (718) 744-4588 | [Portfolio](#) | [LinkedIn](#)

SKILLS

Languages: Java, SQL

Frameworks: Behavior-Driven, Data-Driven, POM, JUnit, TestNG

Tools: Jira X-Ray, Selenium Web-Driver, Selenium-Grid, Cucumber, REST Assured, JDBC, Postman, Maven, Jenkins, AWS

Key Skills: Pair Programming, Agile / Scrum, Object-Oriented Programming (OOP)

Version Control: Git, GitHub, GitLab

EXPERIENCE

ViewERP

Automation Engineer in Test

January 2021 - Present

- Orchestrated the development and maintenance of automation frameworks, driving a 30% increase in test efficiency through the adoption of POM design patterns with Java, Maven, Selenium WebDriver, Cucumber, JUnit, and TestNG.
- Introduced Cucumber/Gherkin, leading to a 40% improvement in test case understanding among non-technical stakeholders.
- Demonstrated proficiency in Agile (Scrum) and Waterfall methodologies, ensuring seamless project execution and delivery.
- Strategically designed test strategies, plans, scenarios, cases, and traceability matrices, resulting in a 20% reduction in defects and improved alignment with business objectives.
- Showcased strong expertise in REST API testing, with a track record of successfully conducting 500+ HTTP requests (GET, POST, PUT, DELETE) using Postman, contributing to robust software quality.

Symund

QA Analyst

October 2018 - December 2020

- Actively contributed to Agile/Scrum ceremonies, including backlog grooming, sprint planning, daily scrum, sprint review, and sprint retrospective meetings, ensuring streamlined project progress and a 15% reduction in development cycles.
- Conducted in-depth analysis of business and technical requirements, leading to the creation of 200+ comprehensive test cases that covered both positive and negative scenarios, enhancing test coverage by 30%.
- Skillfully executed data-driven testing using Selenium WebDriver and JUnit in Java, resulting in a 25% increase in test automation coverage and a 50% reduction in manual testing efforts.

EDUCATION

42 Silicon Valley

August 2018 - October 2018

- Attended an immersive and selective free software engineering program at 42 Silicon Valley, focusing on project-based peer learning.

CUNY, College of Staten Island, NY

Unfinished Bachelor's Degree in Computer Science

September 2016 - June 2018

- Enrolled in and departed from college while maintaining strong academic standing due to financial considerations, with the aim of pursuing a career in Quality Assurance.
